4. Stock HEI ignition (may be locked down)

Interpretation of the rules by an official is FINAL. The management reserves the right to change any rule or rules if they feel it is necessary. Any refusal to having your car inspected will results in points and money forfeited for the night or not being able to compete. If you are found to be illegal you will forfeit any money and points for the event. You will be required to start at the back of the lineup for the next three events you compete in.

It would be impossible to cover all the aspects of everything allowed or disallowed. Just because it is not covered in the rules does not mean it is OK. Check with the rules official first. Do NOT ASSUME you can do something just because it is not stated in the rules.
